DETAILED ACTION

Election/Restriction

1. Claims 1-20 are presented for examination.
2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
 - I. Claims 1-17 are drawn to an information delivery system and method comprising storing, controlling, transmitting, receiving, controlling, storing, and displaying information, classified in class 709 subclasses 200-203.
 - II. Claims 18-20 are drawn to an information delivery method comprising creating a product catalog, generating a delivery schedule, and transmitting the product catalog, classified in class 705 subclasses 26-27.
3. Inventions (I and II) are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (II) has separate utility such as an information delivery method comprising creating a product catalog, generating a delivery schedule, and transmitting the product catalog usable in e-shopping and e-catalog browsing. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group (I) class 709 subclasses 200-203 is not required for Group (II) class 705 subclasses 26-27, restriction for examination purposes as indicated is proper.

4. Applicant is required under 35 U.S.C. 121 to elect a single group disclosed as described above for prosecution on the merits because each of the groups requires different search in different class and subclasses.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor ship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(1).
